

Quality policy

Trading House "VELAN" is the exclusive representative of JSC "VELAN" for the sales of explosion-proof electrical equipment. The main activity of VELAN Trading House is to achieve and maintain at a high level the quality of the services provided, which are the key to stable and long-term relationships with customers.

To ensure this, VELAN Trading House is committed to: maintain a Quality Management System that meets the requirements of the International Standard ISO 9001: 2015, constantly improve its effectiveness, and fulfill other applicable requirements.

The quality management system of VELAN Trading House is aimed at the most complete satisfaction of customer needs, contributes to the rational use of resources, through the effective use of the process approach.

The top management of the company has defined and is implementing a quality policy, the main provisions of which are:

1. An individual approach to meeting the needs of customers in electrical equipment manufactured by JSC VELAN and other manufacturers.
2. Ensuring the financial stability of VELAN Trading House, regardless of the situation on the market.
3. Expanding the position of VELAN Trading House in the domestic and foreign markets.

The implementation of the selected policy is guaranteed by the following factors:

- the participation of all employees in work to improve quality;
- a clear distribution of responsibility and authority of the personnel of the enterprise;
- ensuring a stable quality of work not by identifying and eliminating errors, but by warning them;
- continuous improvement of all activities of the organization.

"VELAN" - is your reliability and your protection.

"VELAN" - is an ideal combination of decades of experience and continuous innovation.

"VELAN" - is a wide range of explosion-proof and dust and water tight electrical equipment of domestic production.
